Year's Philanthropy Climaxed at Installation

Music reigned for the Torrance Junior Woman's Club at their installation dinner April 22, presided over by Mrs. J. G. Louvier, outgoing president. The musical theme highlighted the evening's program, presenting scholarship winners from the Torrance Area Youth Band.

The Juniors heard Ronnie Van Dyck, clarinet; Peter Bailey, violin; Patricia Patterson, piano, and in addition to the three winners, Terry Waldo on the trumpet. Climax of the year's philanthropy came as the three winners were presented their \$100 scholarships by Mrs. Louvier.

New officials were installed by Mrs. C. Albert Smith, Posing as members of an orchestra, as each performing her duties, contributes to the full symphony of club activity.

Those being installed were Mmes. Kenneth Boulter, president; Clifford Treize, first vice-president; W. E. Starr, second vice-president; A. R. Felando, Jr., third vice-president; John A. Hall, recording secretary; C. L. Briner, corresponding secretary; Barton A. Tatum, treasurer; Douglas Horlander, auditor; Edward D. Alken, reporter; Robert Davis, parliamentarian; Allen E. Hofferber, philanthropy; Lee E. Allen, junior-senior; and W. H. Gardner, federation chairman. Also installed were co-ordinators from the Senior Women's Club, Mmes. A. F. R. Ewalt and R. E. Shaw.

Punishment of Evil

That evil is its own punishment is brought out in the sermon on "Everlasting

Punishment' to be heard in all Christian Science churches on Sunday. The theme for the sermon is

set by Golden Text from Proverbs (13:21), "Evil pursueth sinners; but to the righteous good shall be repayed."

HOW WELL OFF ARE STEELWORKERS?

Let their own union leaders answer...

in statements and official reports from the Atlantic City Convention of United Steelworkers of America last September

Highest Wages in America

"We have the highest industrial wages in America, 25 to 35 cents per hour above even those of the automobile industry."

"The average basic steelworker now earns approximately \$2.95 an hour, or \$5900 for a 2000-hour year."

Pay Outstrips Living Cost

"This [rise in minimum pay since 1953] represents an increase of close to 48 percent. In the same period the cost of living has risen by a little more than 8 percent."

"And we got 48!"

But What About Layoffs?

"A laid-off American steelworker under SUB (supplemental unemploy-

ment benefits) was receiving more income than a fully employed steelworker in any other country, even taking into account the differences in cost of living."

Steelworkers in Forefront of Industry

"The wage increases and improved benefits place the wages, hours, and working conditions of most steelworkers in the forefront of American industry."

Steelworkers are well off, in all of the ways their leaders claim.

Wages and benefits in steel have been rising sharply. In fact, throughout virtually all industry they have risen much faster than productivity could be increased. That's one big reason for the inflation which cuts the buying power of your dollar.

The American Iron and Steel Institute brings you this message from the steel industry because
